THINK WHAT 20 ACRES OF THIS WILL MEAN TO YOU!

The water that belongs to this land is the oldest decreed right on the RAFT RIVER and is the highest assessed water right in Cassia County. The land is exactly the same as the property adjoining it, which is owned by a Salt Lake broker, who estimates its value at \$150.00 per acre. Just north of this property is Lieut. Governor Sweetzer's famous farm, which is considered the best farm in the northwest. Mr. Sweetzer took three world's prizes for grain last year. He harvested 133 bushels of oats per acre on 80 acres. These oats were the very best seed oats, known as Garton 552, and sold for \$3.00 per hundred.

DEPUTY SHERIFF SHOT IN A DUEL

Attempts to Arrest a Drunken Southern Pacific Shopman When Blows Are Exchanged and Guns Drawn—Officer Wounded in the Thigh and His Assailant Receives a Bullet in His Right Arm—Battle Fought Near Carnival Grounds.

In his attempt to stop a drunken brawl, at Twenty-seventh street and Washington avenue, at 9:30 o'clock last evening, Deputy Sheriff Louis J. Hobson received a bullet wound in the right thigh from one of the brawlers, who in turn was shot by Hobson in the right forearm. Neither was seriously hurt.

August Bodh, a Southern Pacific shopman, was the man who shot the deputy. He is 25 years of age and resides at 1737 Van Buren avenue.

At the time of the shooting there was a large crowd in the vicinity going to and from the carnival grounds, and all concerned are wondering how

it was no onlookers were injured by the stray bullets. Among those near the scene was County Clerk Samuel G. Dye, a brother-in-law of Hobson, with his wife and three-year-old daughter. During the melee he rushed in and aided in subduing the drunken man. Dye secured the revolver from the fellow and probably prevented still further injuries.

Hobson was walking toward town to keep an appointment when he came upon three drunken young men quarreling over two flasks of whiskey which were broken upon the sidewalk. One man was down on the ground and a general rough-and-tumble fight was

JAIL BREAK IS MADE ALMOST IMPOSSIBLE

This morning the county jailer counted 23 noses in the bastille, some of whom are desperate men, among them being Maxwell, McSwiggins and Martin, the highway robbers, two negro vags and August Bodh, the Swedish lad who shot Deputy Sheriff J. L. Hobson last evening.

Extra precaution is being taken by Sheriff DeVine to avoid a jail break and the jail locks are all being examined carefully and larger fastenings provided for the outer door. There are a number of men in the jail, some sheriff states who would take desperate chances to gain their liberty. The bad fellows will be locked in separate cells and the corridors will not be opened to them at any time. No quarter will be shown them in any respect, and they will be as carefully watched and guarded as if they were murderers.

Mr. Carl, the civil service man will be at Reed Hotel in Ogden, Tuesday, July 23. Young men and women should not fail to call and see him. (Advertisement.)

REORGANIZE BUREAU.
Washington, July 26.—Reorganization of the weather bureau is soon to be made as a result of a report made yesterday by a special committee which investigated the workings of the bureau. The committee consisted of E. H. Wowie, C. F. Marvin and E. H. Calvert.

LEGAL.

U. S. Department of Agriculture, Office of the Secretary, Washington, D. C., July 16, 1913. Notice No. 94. Notice is hereby given that the Secretary of Agriculture has under authority conferred by law, issued Amendment 1 to Rule 3, Revision 2 (Amendment 1 to B. A. 1. Order 195), dated July 16, 1913, and effective on and after August 1, 1913, to prevent the spread of scabies in sheep. The aforementioned order amends Rule 3, Revision 2 (B. A. 1. Order 195) which in it relates to the states of Nevada and Utah, and reads in effect as follows: That part of said rule which specifies the quarantined portion of the state of Nevada is hereby revoked and the quarantine is removed from that state. That part of said rule which specifies the quarantined portion of the state of Utah is amended to read as follows: In Utah the counties of Carbon, Emery and Grand are quarantined. The effect of this order is to release from quarantine on account of scabies in sheep the counties of Elko, Humboldt, and White Pine, in the state of Nevada, and the counties of Box Elder, Tooele, Juab, Millard, Sevier, Sanpete, Utah, Salt Lake, Davis, Morgan, Weber, Cache, Rich, Summit, Wasatch, Wayne and Uinta, in the state of Utah. Copies of this amendment may be obtained from the chief of the bureau of animal industry, Washington, D. C. B. T. Galloway, Acting Secretary of Agriculture.

This morning Dr. Robinson dressed the leg of Officer Hobson and found the gunshot wound in good condition. The doctor stated that had the wound been slightly deeper, one of the large arteries of the leg would have been hit and death before medical aid could have reached him. The officer suffers a little soreness but he is on shift today doing his regular duties.

Bodh was brought into the office for an examination by the doctor. His eye was greatly discolored and bruised, the result of a blow from Deputy Sheriff Hobson, and his face was pale. He said he did not remember what had happened as he was greatly under the influence of whiskey. He thought he could remember the faces of one or two of the young men with whom he was fighting, but their names were not familiar to him. The doctor told him that the wound in his arm was of little consequence but that he might be thankful that he was not occupying a place in a morgue.

Bodh says he is not yet 21 years old and that he has not been in trouble before. He stated that he purchased the revolver yesterday with which he shot the officer but could give no particular reason for buying it.

The young fellow does not care to discuss the subject of the shooting and he does not seem to fully understand the predicament he is in.

When told that he might have to spend many years of his life in the penitentiary, he made no remark. A number of young ladies "tagging" for the ball day game Tuesday appeared at the Sheriff's office while young Bodh was there and he advised them that he did not care to be "tagged" for the occasion as it may be that he cannot attend the game. The young ladies did not tag him.

MARION MINING CO. IS GETTING RETURNS

At Charleston, Nevada, the Marion Mining company has operated its mill with good success for about sixty days past. The first thirty days were mostly devoted to testing out and adjusting the machinery in the mill, but for the last thirty days the company realized \$1150 and in a short time the company believes the operations will make it self-supporting.

The mill and mine operations are in charge of J. H. English, formerly of McGill, and a man of much experience in California. Nine men are employed in the mine and mill. All the tailings and slimes from the fire-stamp mill are being saved and impounded as the company expects it will some day add a cyanide department to the mill, as not all the values can be saved by amalgamation alone, but by the use of cyanide a much greater percentage can be saved.

The Marion company is controlled by McGill and Ogden people and is a consolidation of the Marion and Jarbidge companies. George F. Waddell, superintendent of the concentrator at McGill, is now at the property to make a thorough inspection of it.—Ely Expositor.

FAVOR "BIRTH STRIKE"

London, July 26.—A "birth strike" as a means of bringing about electoral reform in Prussia is reported to be under discussion by a Socialist gathering which heard the idea recently advanced by a speaker.

The father of the idea was Dr. Alfred Bernstein, who declared that most successful pressure would be exerted on the government if mothers would make such an announcement as this:

"We will bring no children into the world to become citizens of this state unless better rights of citizenship are accorded."

WORLD'S MARKETS

WALL STREET
New York, July 26.—There was no change of importance in the early dealings on the stock exchange today. Some of the active issues, including the Harriman and Hill stocks made small gains, while Reading, Amalgamated Copper and Canadian Pacific declined as much. The volume of trading was extremely light in contrast to yesterday's early activity.

Prices showed some inclination to improve soon after the opening and trading became a trifle more active for a brief time. One point gains in Great Northern preferred, Northern Pacific and Lehigh Valley, a similar loss on Louisville and Nashville and a five point break in American Express were the only features.

The market closed firm.

Prices were maintained at some difficulty when the moderate buying of the Hill stocks abated. Union Pacific Reading, Steel and Amalgamated were depressed slightly under yesterday's change but made some recovery toward the close. Chesapeake & Ohio and Missouri Pacific were rather heavy.

Chicago Grain.
Chicago, July 26.—Buying on the idea that prices were dangerously low and that any change would probably favor holders, gave steadiness today to wheat. Purchasing became general after an early dip due to weak cables and to favorable weather northwest. The opening was a shade to 3-8c lower. September, which started at 86 to 86 1-8c, a loss of 1-4 to 3-8c, rallied to 86 1-4c.

Scarciness of moisture in the chief producing states made the corn market strong. September opened 1-4 to 1-2c higher at 61 3-4 to 62c, and rose to 64 1-4c.

Oats developed firmness on account of offerings being light. September, which at the outset was 39 3-4 to 39 3-4-7-8c, a gain of 1-8-1-4 to 1-4c, climbed to 40c.

Provisions tended to harden with coarse grain. First sales were unchanged to 5c higher, including September options as follows:

Pork, \$21.30.
Lard, \$11.75.
Ribs, \$11.77 1-2 to 11.80.
Wheat—Additional hardening ensued as a result of export sales. The close was steady with September 1-5 @ 1-4c net higher at 86 1-2-3-8c.
Corn—A further upturn occurred in consequence of higher temperature southwest. The close was nervous at 62 3-4-7-8c for September, a net advance of 1 1-4-1 3-8c.

New York, July 26.—The statement of the actual condition of clearing house banks and trust companies for the week shows that they hold \$28,157,700 reserve in excess of legal requirements. This is an increase of \$7,885,500 from last week.

The statement follows:

Actual Condition.
Loans, \$1,916,346,000; decrease, \$13,074,000.

MARKET REVIEW.

New York, July 26.—The week in the stock market was characterized by a very general advance and greater activity than at any time since the extreme dullness of the early summer period. Trading, however, continued largely professional, with occasional signs of outside or public interest. As yet the investment demand is a negligible factor, but opinion prevails that this phase of the situation is working towards steady improvement.

Undoubtedly the most favorable feature of the situation is the greater ease of money, not only here but abroad as well.

Discounts at all important centers show a relaxing tendency and the present week witnesses pronounced improvement in the condition of Europe's leading fiscal institutions.

The copper market also has undergone a change for the better, the metal being quoted as high as 15 cents a pound, as against 14 3-4 a few days ago. An excellent semi-annual statement by the Republic Steel and Iron company threw an interesting sidelight on conditions in that industry and gave rise to favorable estimates respecting the second quarterly statement of the United States Steel corporation, to be issued next Tuesday.

Crop prospects remain somewhat doubtful as to certain cereals, but the total yield promises to be well above recent averages.

Railroad earnings are beginning to reflect crop movements, although slacker business and reduced steel and iron tonnage serve as partial offsets.
